

From the Desk of Mrs. Heiser-Meyers...

October 2, 2017

Dear Parents & Guardians:

Horizons Elementary is pleased to announce that homework for each week in math for First through Fifth grade and ELA homework in Second through Fifth grade will be organized and consistent among the grade levels. Students will receive the homework packets on Monday with the expectation that it is completed and reviewed in class on Friday.

This homework is organized and designed so the students should be able to complete the work independently at home. It is a spiral review of skills that were previously taught. Our teachers are available via phone or email if parents have any questions about helping his/her child with answering the questions. It is our intent to post the answers to the week's homework on the school's website each Friday after the homework is collected. That way parents are able to see the answers without worrying about students accessing the answers prior to turning in the homework.

Math Homework will begin: Monday, October 2nd
ELA Homework will begin: Tuesday, October 17th

Please encourage your child to complete this valuable homework. The school will have incentives for completion. This is an excellent opportunity for your child to practice valuable skills in both ELA and math. Please take full advantage of this homework opportunity.
